

RIP IT UP

PROCARE TAKES THE HARD WORK OUT OF HAIR FOIL.

PROCARE – UK market leader for hair dispensers and Europe's largest producer of hairfoil - produces different foil grades and widths, from Everyday Basics to Superwide, all in a variety of colours.

Ever inventive and intent on making the colourist's life easier and more productive, the company's latest innovation is a fully automated hair-foil dispenser - the Procure 247.

Destined to be the deluxe model of the dispensing world, Procure 247 is simple to set up and use, and automatically dispenses sheets of foil in a choice of four lengths and with four fold options. The design incorporates two detachable foil trays, one for 200mm and 300mm lengths and another for the 400mm and 500mm foils.

Whatever your budget, Procure Dispensing systems make life easier for the colour technician, ensuring the desired length of foil is dispensed with an easy to use pre-fold. This all contributes to a more cost effective operation, reducing wastage and saving time – giving the colour technician more freedom to create fabulous colour.

Fabulous product choices include:

- **Cut and Fold Dispenser** – a neat efficient dispenser, suitable for hairdressers on the move.
- **The Clog** – the classic dispenser with an updated look.
- **The Snip and Tuck** – designed specifically to speed up the highlighting process by allowing an efficient tear and fold action.
- **Hair Hostess** – neat and efficient mobile dispensing system for hair foil. Includes a rotating tint table with bowls, working space and a waste bin.
